Dear Harold,

Glad to hear your checkup was fine. There are many wonderful people in the medical profession. I've met fine ladies, also.

Hoped you enjoyed The Magus on its own merits. My reference was the way Conklin manipulated and produced his own realities and created the "evidence" and mise en scene as Nicholas finally realizes.

The Parkland testimony reproduced by Groden in The Photographic volume of The H.S.C.A. Report and their disbelief at missing the Doc drawings today raises questions The H.S.C.A. would not confront. The testimony of Walker, Poe, Tomlinson, Wright raises other questions.

"The Shot Upon Mouth" memo was effective since Bethesda personnel waved hastily such forward to say, "I was an accessory after the fact and obstructed justice in the Murder of The President!!"

You put it best when you wrote "there was no investigation".

Hunkle and Turner have re-cycled their stuff with a CIA/Mob dial it all in current Penthouse. Begins, suitably enough, with bogus R.F.K. "quote" ---.

Publisher, a good guy, but

Belin was O'Toole, his "expert" on the case.

A lot of publicity over "empty" Oswald cabin and the "photo" of Oswald reproduced in Conspiracy, a book which used Weberman and was bestseller in U.K. Crazy stuff.

Beaber says best proof of L.H.O.'s "innocence" is that he he was capable of Murder he would have killed Marguerite! L.H.O., innocent! Beaber is re-posting J.G.. Now he names "plotters" - Cubans, Santo, McWillie, R.D. Mathews, Cubans, perhaps William K. Harvey, outlaw CIA Harvey "types" and "others" - - - -. "Read" J.F.K. "Killed" is at the bottom of lake Pontchartrain, has been for 17 years - - -." "I can get indictments - - -." So Beaber tells a media group in New York at Mailer's party. I heard Summers cut Wicker to pieces.

Beaber sounds paranoid. Substitute Mob for CIA and he is on my league but not so bright Garrison.

The Ruby phone calls only have relevance if Ruby was part of plot to kill - Not just L.H.O. - but J.F.K. as well! I quite believe Rosselli when he says Mob would not trust Oswald or Ruby "to hit a dog!" And the Myths are being researched!

You're the only man who was a witness to see this stuff. A memoir could be great stuff.

Phillips advised Freed to sue 75 million suit. Sincerely,
